In revous Ancendon of all kinds, and for reasons faminar to medical men, the operation of the propertion of from must necessarily be salutary for, unlike the old exides, it is vigorously tonic, without being exacting and overneating; and gently, regularly aperient, even in the most obstinate eases of oustiveness, without ever being a gastric purgative, or inflicting a disagreeable sense of oustiveness, without ever being a gastric purgative, or inflicting a disagreeable sense, ion.

It is this latter properly, among others, which makes it so remarks by effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tenency which forms them.

In Dyspepsia, innumerable as are its causes, a single bax of these Chalycenter Pils has often sufficed for the most habitual cases, including the attendant Costineness.

OPTICAL INSTRUMENTS .- Many of our readers will be pleased to know that Mr. L. Dessaeur, the well known Optician is in this city for a few days. Hear what the Boston Medical Journal says of this gentleman's in-

struments:—

"Until within a few years past, we have been dependent upon European manufacturers for our best optical instruments. Indeed it has been supposed that the glass from which the lerses of microscopes and telescopes are made, could not be manufactured in this country of sufficient putity.—But we now have abundant evidence that such ideas are erroneous. Not only can the momentals which compose them be well prepared here, but the finish and perfection of the instruments will favorably compare with any which are made in Europe. We have lately had an opportunity of examining some very fine microscopes, telescopes, magnifing glasses, and other optical instruments, which were manufactured for the use of physicians by fir L. Dessatur. They are or physicians by Mr. L. Dessaeur. They are not only well made, but are sold at very low prices. There is no necessity of importing instruments of the kind when they can be obtained in such perfection in this country as those we examined."

The Coming Festival.

Well learn that the price of tickets to the Peatlval at Aquidueck Hall Wednesday will be fifteen cents-admitting the holder afternoon and evening. This pleasantly situated and tastefully furnished church was densely crowded last Sabhath. In the after part of the day the congregation was largely made up of townspeople. We were not able to be present but learn from several who were so, that the services were very impressive and that the informants say that the efforts were really successful and the hearers were delighted.

Practical Joking.

A great many years ago, before the introduction of steam navigation into the waters of Long Island Sound, Capt. Thayer, whose name will be remembered by many of our readers as one of the pioneer captains in steamboat travel, com manded a sloop in the waters of Taunton river. One morning ,being at the landing n Berkley, and having occasion to cross to the other side, he entered a barn or shed where the boat's cars were kept with receiver to comply with the petition in six a hen came cackling off her nest, having laid an egg. Being a practical joker, it occurred to him to sperate a little upon the superstitious fears of the inhabitants of that benighted town. He accordingly picked up the warm egg, and wrote on its susceptible shell with his pencil " Wos to the town of Berkly," and replacing the egg left the barn.

In due time the nest was cleared of its eggs and the one bearing the inscription discovered. The wonderful news was at ence " telegraphed " from house to house through the town, and before night hundreds had journeyed to the sp ot to see it for themselves. Consternation was depicted on every countenance in view of the im-pending calamity which they were certain the phenomena denoted. It finally occurthe phenomena denoted. It finally occur-red to them to ask counsel of their pastor in this their hour of terror. Purson A. was accordingly sent for and arriving, the cause of slarm was made known to him, hacked up by an exhibition of the egg. The parson examined it attentively, after which he laid it down and for many minutes seemhe laid it down and for many minutes agemed lost inreflection. His parishoners thought they saw in this fresh cause for alarm, and one and another would ejaculate, in hoarse whispers, "The Lord wrote it! the Lord wrote it!" At length the old man arose as if to address them, and stretching to his full height exclaimed—" Ir the Lord wrote that, he did'n's know how to spell Berkley!" and bidding them good day walked off. Their eyes were opened and they saw in it at once the trisk of some time alterwards that they found out the author, to whom they ever afterwards owed a grudge. they ever afterwards owed a grudge.

AROMATIO DIGESTIVE CORDIAL.—
This excellent and agreeable preparation is one of the best means of improving the apprecise, promoting digestion, and giving strength and tone to the stomach, which has yet been offered to the public.

It is an old German receipt, and has been in use for many years in the families of the munisaturers, where it has proved an invaluable remedy for DYSPEPSIA, HEART-BURN, FLATULENCE and GRANPS IN THE STOMACH, arising from cold or indigestion. All persons having the least tendency to indigestion should never be without it, as a small, wine-glass full, taken after meals, will exclude the possibility of contracting the dyspepsia.

It is composed of fifteen ingredients. Bitters and Aromatics, and only needs to be tested to be approved and appreciated.

To persons who feel any disposition to Chilis or cramps after bathing, it is of the highest benefit, as it is a mild but prompt stimulant, and produces a healthy and generous glow throughout the system, immediately after taking it.

It is an agreeable beverage, and may be used with safety, pleasure and advantage by invalids, and by those in health.

For Sale everywhere, put up in quart botles. Price one dollar.
